Irvington Grammar School.

The above photo is a picture of the Irvington Grammar School taken prior to 1922, at which time we moved into our present building.

This building is a four room structure and is still standing on the site of the old school grounds.

This picture was taken by Dr. Durham, who at that time was Clerk of the Board of Trustees. Dr. Durham has since resigned from the Board of Trustees, but nevertheless still retains his keen interest in the welfare of our school.

By this time we were quite hungry, so we decided
to go to the beach to eat our lunch.
After lunch we went to the Aquarium where we saw
many different kinds of fishes. From here we went
to the Hall of Natural Sciences. We all enjoyed the
exhibitions very much and were very interested.
We then went to the Golden Gate Bridge and it was

Our Second Trip to San Francisco.

The Eighth Grade of the Irvington Grammar School went on another trip to San Francisco on April 17, 1934.

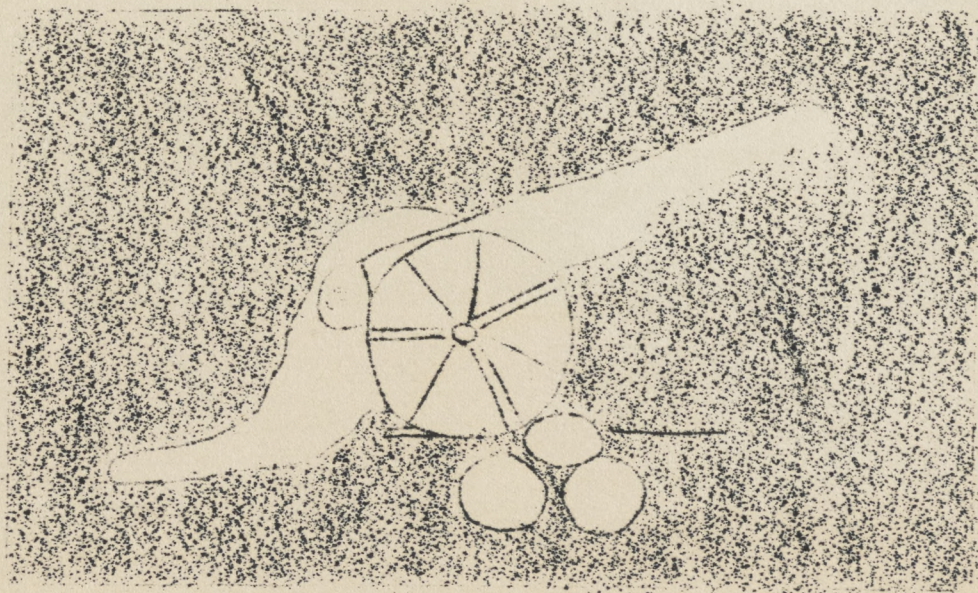

This time we went across on the ferry. We arrived at the pier at 9:10 and waited five minutes for the boat to leave. It took about a half hour to get across the bay. We went through China Town, which is the largest in the world, except China.

After we had gone through China Town we went up around the Presidio, where we saw many soldiers. There were also many cannon balls in front of the houses which were very interesting.

The scenery was very beautiful at San Francisco. We then came to the beach where we ate our lunch. After lunch we went riding on a little car, called the Dodgem. After this we went for a ride on the tumble bug, and many other things.

We left about four o'clock for home. We came home across the Dumbarton Bridge.

The Macon was tied to the mooring mast ready to leave for Florida, the day we were over there. We had a very good view of this ship. We were all very much pleased with having the opportunity of seeing such a wonderful view of this ship.

We would like to have seen the Macon leave, but we had to get back to school.

Our Exhibit

Our exhibit of the Irvington Grammar School was staged in the music room of our school during the week of April 23 to April 27, 1934.

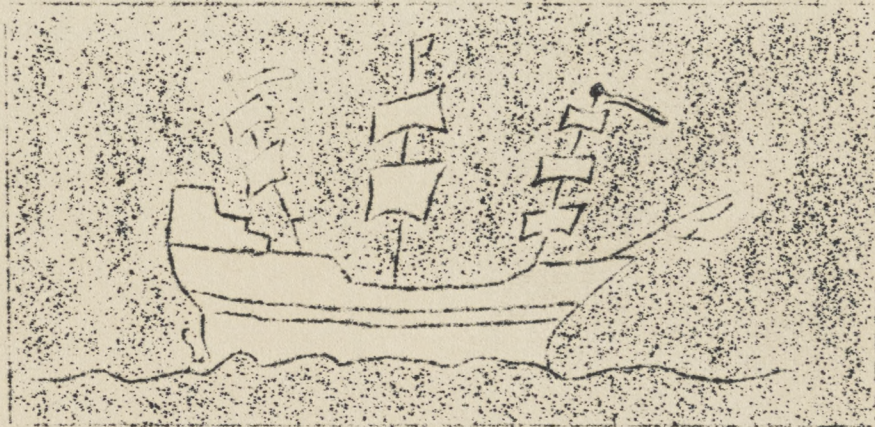

The following articles were displayed by the Primary Grades: toys, such as a swing, bars, ring, and a slide, the Flag of the United States made of rolled paper, a Japanese garden, and an African garden.

The Intermediate Grades had the following articles on display: a map showing all the missions of California, a scrap book of California, paper aquariums, an Egyptian Desert scene, tooth brush holders and compositions pertaining to the portrait of George Washington.

The Upper Grades showed the following pieces of workmanship: sewing such as dresses, bureau scarfs, pillows and a superb quilt made by hand, smoking stands, letter holders, broom holders, two maps, one showing the many products of the United States, and the other map showing the rivers and mountains of the United States, and a large table upon which was displayed seven boats.

Altogether the exhibit was a remarkable success.

The first thing I noticed when I stepped out of the car was the cold. It was a sharp contrast to the warm blanket I had been sitting under. I looked up at the sky, which was a pale, hazy blue. The air was still, and there was a sense of quiet solitude. I took a deep breath, feeling the cool air fill my lungs. The ground beneath my feet was soft and uneven, covered in a layer of dry leaves and grass. I walked slowly, my steps creating a soft crunching sound. In the distance, I could see the faint outlines of trees and buildings, but they were too far away to make out clearly. The overall atmosphere was one of peace and tranquility, a moment of stillness in a world that was always in motion.

The Class of 1934 left for Santa Cruz on their annual picnic on May 17th. This picnic proved to be a very enjoyable one.

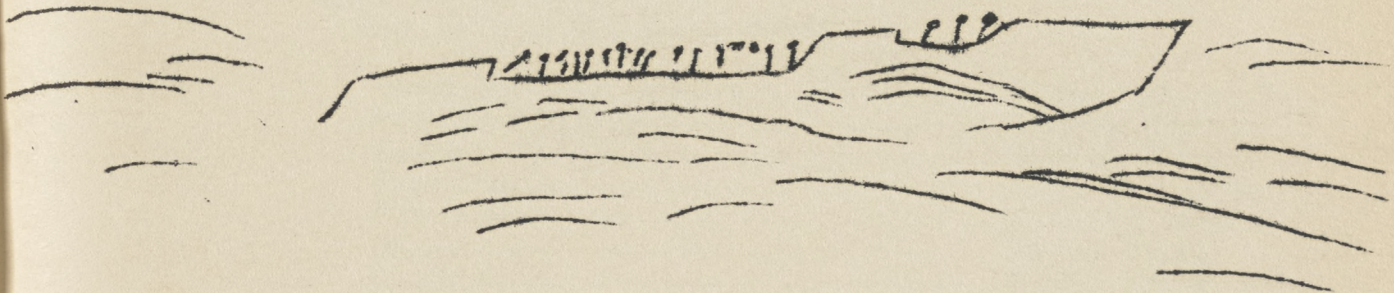

A number of the members of our class went in swimming in either the plunge or else on the beach.

We had a very exciting ride on the "Big Dipper" and in "Laugh Land", where we heard many screams. We also had a very thrilling ride on the speed boat.

Not only did we have a good time along the beach, but also on the way going and coming. Along the way we saw many wild flowers, trees, and ferns.

"Patience and Rebecca"

Our two characters, "Patience and Rebecca," met each other
in the year 1840, at the house of John A. Smith.
The year of their meeting.

Rebecca was a young woman, of a fair complexion, and of a
gentle disposition. She was the daughter of a farmer, and
had been educated in the common schools of her native
State. She was a pious and virtuous woman, and was
well acquainted with the principles of the Christian religion.
